(ii) REVIEW OF FINANCIAL RESULTS

Results from Operating Activities and Loss for the Period

The Group's result from operating activities (including finance costs, but excluding impairment and depreciation) for the reporting period was a loss of \$3,433 thousand (2009: \$2,601 thousand). The loss for the period was \$4,448 thousand (2009: \$3,803 thousand) including impairment of property, plant and equipment and intangible assets of \$901 thousand (2009: \$1,173 thousand) and depreciation and amortisation of \$114 thousand (2009: \$29 thousand).

The results from operating activities (excluding impairment and depreciation) included:

<i>In thousands of AUD</i>	6 months ended Dec 2010	6 months ended Dec 2009

Farm cash operating cost per kg	\$11.73	\$20.78

Revenue

Revenue from sales

Revenue from the sale of fish was \$2,665 thousand for the period from the sale of 264 thousand kg. Total 286 thousand kg of fish was harvested for the period.

Impairment

The Group has undertaken a review of the carrying value of its assets and recognised impairment charges for property, plant and equipment of \$901 thousand and intangible assets of nil resulting in those assets being carried at their estimated net fair value.

(iii) REVIEW OF FINANCIAL CONDITION

At 31 December 2010, the Group had a working capital surplus of \$9,813 thousand represented significantly by biological assets of \$8,763 thousand.

At 30 June 2013, the Group had a working capital surplus of \$11,786 thousand represented significantly by biological assets of \$6,247 thousand and cash and cash equivalents of \$4,110 thousand.

The Group's working capital will be utilised to fund operating and capital expenditure to continue to develop the Cone Bay farm site and increase profitability with scale.

The Group has the ability to slow its expansion strategy and/or harvest fish at less than the targeted harvest size to maintain sufficient cash reserves, with a resulting delay in the growth of the scale of the operations.

The financial statements have been prepared on a going concern basis which the directors believe to be appropriate. The directors are confident that the Group will maintain sufficient levels of working capital to continue as a going concern and continue to pay its debts as and when they fall due.

If the Group is unable to continue as a going concern, it will be required to realise its assets and extinguish its liabilities other than in the ordinary course of business and at amounts that may be different to those stated in the financial statements.

(iv) SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

1. Reporting entity

Marine Produce Australia Limited (the Company) is a company domiciled in Australia. The address of the Company's registered office is 34 Bagot Road, Subiaco WA 6008. The consolidated interim financial statements of the Company as at and for the half year ended 31 December 2010 comprise the Company and its subsidiaries (together referred to as the 'Group' and individually as 'Group entities').

The Group is involved in the aquaculture industry, specifically the farming of Barramundi fish in sea cages in North West Western Australia.

2. Statement of compliance

The consolidated interim financial report is a general purpose financial report which has been prepared in accordance with Australian Accounting Standards AASB 134 Interim Financial Reports and the Corporations Act 2001. The consolidated interim financial report does not include all of the information required for a full annual financial report, and should be read in conjunction with the consolidated annual financial report of the Group as at and for the year ended 30 June 2010.

The Company is of a kind referred to in ASIC Class Order 98/100 dated 10 July 1998 and in accordance with that Class Order, amounts in the financial report and directors' report have been rounded off to the nearest thousand dollars, unless otherwise stated.

The consolidated interim financial report was authorised for issuance by the directors on 26 February 2014.

3. Significant accounting policies

The accounting policies applied by the Group in this consolidated interim financial report are the same as those applied by the Group in its consolidated financial report as at and for the year ended 30 June 2010.

4. Financial risk management

During the six months ended 31 December 2010 the Group's financial risk management objectives and policies were consistent with that disclosed in the consolidated financial report as at and for the year ended 30 June 2010.

5. Segment reporting

Revenue is principally derived by the Group from the growth and sale of Barramundi by aquaculture means. The group therefore operates within one operating segment.

6. Estimates

The preparation of interim financial reports requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense, in particular relating to biological assets, being the barramundi in the water. Actual results may differ from these estimates.

In preparing this consolidated interim report, the significant judgement made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial report as at and for the year ended 30 June 2010.

7. Going concern basis of preparation

For the period ended 31 December 2010, the Group incurred a loss of \$4,429 thousand (2009: \$3,785 thousand). At 31 December 2010, the Group had a working capital surplus of \$9,813 thousand, represented significantly by biological assets of \$8,763 thousand.

For the year ended 30 June 2013, the Group incurred a loss of \$3,870 thousand (2012: \$2,254 thousand loss). The Group has a working capital surplus of \$11,786 thousand (2012: \$12,226 thousand). The working capital surplus consists primarily of biological assets, being live Barramundi stocks of \$6,247 thousand and cash and cash equivalents of \$4,110 thousand.

The financial statements have been prepared on a going concern basis which the directors believe to be appropriate. The directors are confident that the Group will be able to maintain sufficient levels of working capital to continue as a going concern and continue to pay its debts as and when they fall due.

The directors believe that it is appropriate to prepare the financial statements using the going concern basis for the following reasons:

- During the year ended 30 June 2013, the Group's shareholders supported the business with the injection of \$3,403 thousand via a capital raising completed in December 2012; and
- The Group has the ability to slow its expansion strategy and/or harvest fish at less than the targeted harvest size to maintain sufficient cash reserves, with a resulting delay in the growth of the scale of the operations.

The Group's 2014 cash flow forecast assumes improvements in performance from the continued operation of the Cone Bay production facility and the grow out and sale of fish, together with continued research and development funding being received. Key risks associated with Barramundi farming and the ability to successfully grow and harvest fish for sale are discussed in Note 14 of the 30 June 2013 annual financial statements. The cash flows also assume the repayment in full of the Caterpillar interest bearing loan. In the event the Group's performance does not sufficiently improve, or the actions to vary the expansion strategy and planned harvest patterns do not deliver improved operating cashflows or delays are experienced with the receipt in research and development grant funding, the Group may require additional funding in the future.

10. Consolidated entities

No subsidiary companies have been added to or disposed of in the Group subsequent to those disclosed within the June 2010 Financial Report.

11. Property, plant and equipment and impairment

During the interim period the Group acquired property, plant and equipment with a cost of \$1,497 thousand (six months ended 31 December 2009: \$1,191 thousand). Disposals for the interim period were nil (2009: nil).

The Group has undertaken a review of the carrying value of its property, plant and equipment assets to assess whether any impairment charges are required. This review found that an impairment trigger existed, being the operating losses and negative cash flows for the reporting period while the farm is building to commercial and profitable scale. As a result of this review, the directors have impaired property, plant and equipment assets to the higher of estimated net fair value and value in use, with the higher being their net fair value, resulting in recognised impairment charges for property, plant and equipment of \$901 thousand.

The majority of remaining carrying values of property, plant and equipment assets are represented by the Group's fleet of saleable boats. The impairments recorded may be reversed in whole or in part in the future in line with the Group's accounting policy (see 2010 Financial Report).

12. Related parties

An amount of \$1,600 thousand payable by the Group to Denise Hutton and Maxima Pearling Pty Ltd, both related parties of the Group, was settled through the issue of 26,666,667 ordinary shares at \$0.06 per share under an entitlements issue completed during the reporting period, related to repayment of interest bearing loans.

Further, an amount of \$3,362 thousand payable by the Group to Denise Hutton and Mathry Pty Ltd, both related parties of the Group, was settled through the issue of 112,052,200 ordinary shares at \$0.03 per share under an entitlements issue completed during the reporting period, related to repayment of interest bearing loans

Further, an amount of \$186 thousand payable by the Group to Miles Kennedy, related party of the Group, was settled through the issue of 6,200,974 ordinary shares at \$0.03 per share under an entitlements issue completed during the reporting period, related to repayment of interest bearing loans

An amount of \$800 thousand payable by the Group to Maxima Pearling Pty Ltd, related parties of the Group, was settled through the issue of 13,333,333 ordinary shares at \$0.06 per share under an entitlements issue completed during the reporting period, related to a trade creditor balance received for services

All other related party disclosures as made in the annual accounts as at and for the year ended 30 June 2010 have continued in nature in the interim period. For details of these arrangements, refer to the 30 June 2010 annual financial report.

13. Subsequent events

In August 2011 MPA secured a 21 year Aquaculture lease with the right to renew for 21 years from the Department of Fisheries (WA) over the 699 hectare Cone Bay site.

During the period ending December 2011, MPA secured EPA approval for 2,000 tonne annual production at Cone Bay through approval of the MPA Environmental Monitoring and Management Plan.

In November 2011, 402,371,299 ordinary shares were issued, representing \$4,024 thousand of issued capital (before issue costs). On 16 December 2011 a 1:20 consolidation of share capital was performed.

AUDITOR'S INDEPENDENT REVIEW REPORT

Independent auditor's review report to the members of Marine Produce Australia Limited

Report on the financial report

We have reviewed the accompanying interim financial report of Marine Produce Australia Limited, which comprises the condensed consolidated statement of financial position as at 31 December 2010, condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the interim period ended on that date, notes 1-13, comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the Group comprising the company and the entities it controlled at the half-year's end or from time to time during the interim period.

Directors' responsibility for the interim financial report

The directors of the company are responsible for the preparation of the interim financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such control as the directors determine is necessary to enable the preparation of the interim financial report that is free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express a conclusion on the interim financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the interim financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Group's financial position as at 31 December 2010 and its performance for the interim period ended on that date; and complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As auditor of Marine Produce Australia Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of an interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the interim financial report of Marine Produce Australia Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the Group's financial position as at 31 December 2010 and of its performance for the interim period ended on that date; and
- (b) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
